TO WHOM IT MAY CONCERN

This letter is intended to express our appreciation for the dedicated efforts, hard work and the outstanding quality of service provided by the Center of Excellence International Consult for the end of the project evaluation service on *“Reducing Vulnerability to Trafficking in Persons, Exploitation and Abuse as well as Recruitment by Criminal Networks through Improved Socioeconomic Conditions in three Regions of Ethiopia: Oromia, SNNP and Somali”* project.

The evaluation was conducted with an objective to examine the extent to which the project achieved its aims in reducing trafficking vulnerabilities of at-risk youth in target areas through providing full range of livelihood support activities, awareness creation and building the capacity of youth centres and women/girls’ clubs. The Consulting firm has performed competently and thorough analysis of the project achievements, challenges were identified, and key lessons were drawn from best practices.

Thus, the consultancy firm has done the final assessment report in an impressive way. In this regard, IOM would like to extend its appreciation to Center of Excellence International Consult and its staff and CEO, Mr. Gedion G. JALATA, which have demonstrated talents, strengths and team spirit.

The UN International Organization for Migration would like to render its appreciation to Center of Excellence International Consult.

If I can be of further assistance, please not hesitate to contact me through the email:
